

Regular investments in the markets can help you grow your assets in the long-term

Take advantage of changes in the financial markets and optimise your long-term return. Investing has never been so accessible and simple.

The essentials

To succeed in buying at the bottom and selling at the top is illusory, given the unpredictability of short-term market trends. Regular investments help to offset upward or downward purchase price movements and enable you to benefit from the average cost effect over time.

Advantages

How it works

- You can invest in a BCGE fund savings plan from as little as CHF/EUR/USD 100 per month.
- The amount you have chosen is invested each month in one or two Synchrony funds selected from a range of 14 eligible funds under this plan, in accordance with your investment strategy and your investment profile.
- The BCGE fund savings plan is available in the following currencies: CHF, EUR or USD.
- No account maintenance fees.
- No commission is charged on the issue or redemption of Synchrony fund units.
